GITHUB/CALDWELL619

As a software developer, I have cultivated a strong conviction to approach these challenges with confidence by understanding the learning process is never complete. My goal is to be on a team that is impacting real world issues through creative implementation.

WORK EXPERIENCE

Southwest Business Corporation (SWBC)

Junior Application Developer

APR 2019 - Present

Principal developer on a consumer facing application that facilitates the sale of vehicle warranties. Architected and developed microservices using many different services on Amazon Web Services. Assisted with the data modeling of the application, as well as developed many features working closely with the product owner to deliver on all timelines. Helped build deployment pipelines on Azure, for continuous deployment for all environments.

US Army

Team Leader

OCT 2012 - NOV 2017

Responsible for leadership and training of a group of five individuals. Communicated consistently, ensuring that all tasks were completed in a timely manner. Administered numerous key leader engagements with the local officials of the Afghan government.

SKILLS

Technical

Vue, React, AWS, serverless architecture, Node, NoSQL, DynamoDB, Lambda, Git, Docker, Bash

Soft

Communication, Patience, Team Player, Empathy, Public Speaking, Customer Interfacing.
